

# SMART FIXTURES

FOR CMMs

Enhance your productivity, flexibility and efficiency

Acquire **all measurements** in one set up

**Fire & forget** - not operator input

Improved machine **utilisation**

**Lower space** requirements

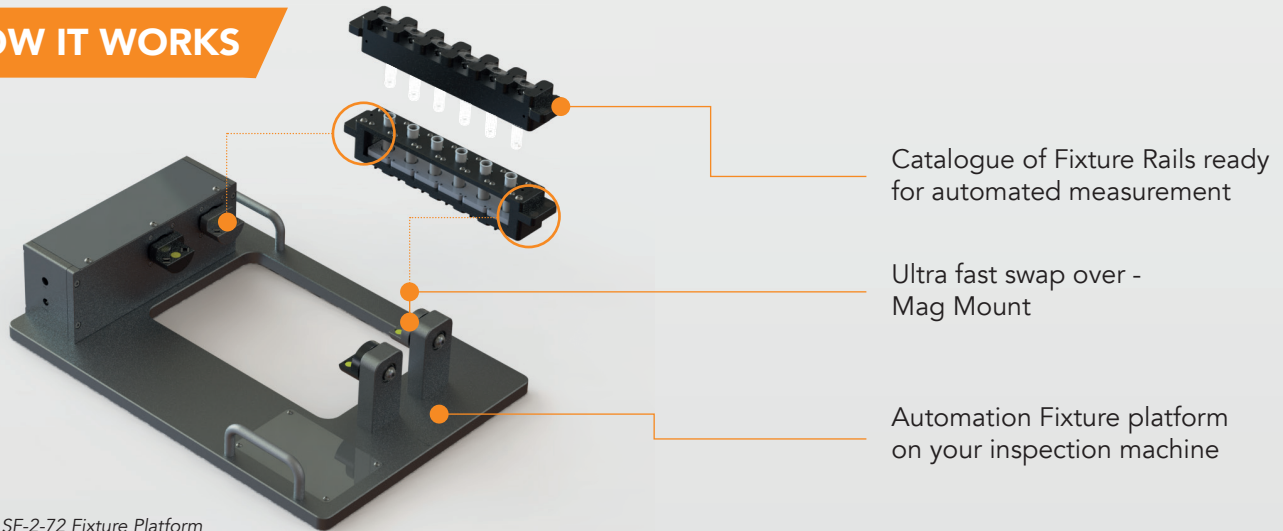

**Reusable and flexible**

**Smart** - reduced operator dependence

**Cleanroom compliant**

Increase **productivity**

## HOW IT WORKS

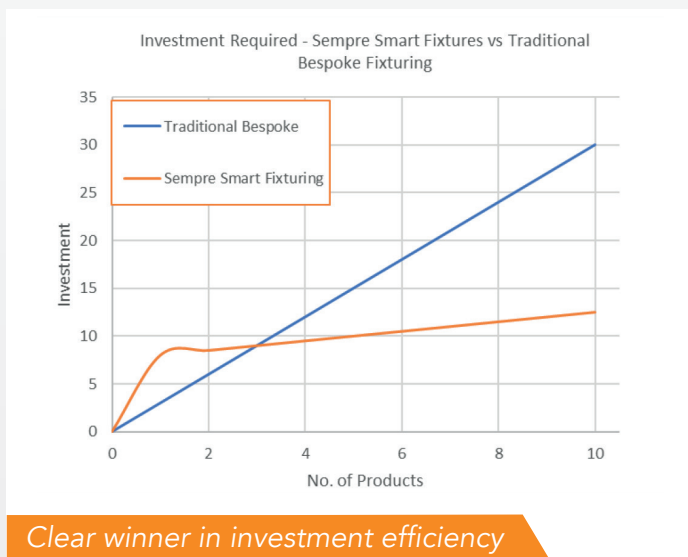

SF-2-72 Fixture Platform

# AUTOMATED ROTARY FIXTURING PLATFORMS

	SF-2-72	SF-2-100	SF-4-72	SF-4-100	SF-6-72	SF-6-100
No. of Axes	2	2	4	4	6	6
Pitch between rails (mm)	72	100	72	100	72	100
Rotation Speed (rot/s)	2					
Rotational accuracy	±0.1°					
Connection	USB 3.0					
Power	120/240VAC					

Don't see a suitable size? We design bespoke systems too!

## The SMART solution

Sempre's innovative new approach to fixturing allows you to redeploy your initial investment in automated rotation technology onto other fixtures.

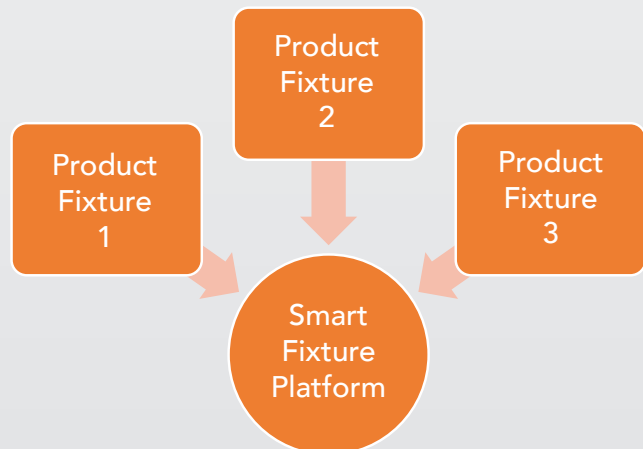

Simply add a new fixture rail onto your existing Smart Fixture platform.

- ✓ Longer term fixturing solution
- ✓ Redeploy your assets
- ✓ Reduce storage requirements

## COMPATIBLE SYSTEMS

- Micro-Vu Multi-Sensing CMM
- OGP
- Zeiss
- Hexagon
- Mitutoyo
